

Mini Iron

Powerful Steam

Lava-infused Soleplate

Temperature Control

Introducing the CHI® Mini Iron: The only irons developed using the same titanium-infused ceramic soleplate technology that powers the flagship CHI® G2 Flat Iron for hair is now available in an easily portable and stored iteration. The CHI® Mini Iron is scratch resistant, heats quickly, and features superior steam performance in a smaller, handheld iron.

From Hair to Wear™: Designed with a sleek look and engineered for high performance, the CHI® line is the perfect balance of style and function. Achieve the same trusted results for your wardrobe as you expect for your hair. Flawlessly styled hair makes your whole appearance fresh and put together. Translate that feeling to your entire outfit for a polished look from head to toe.

Compact, but Powerful: The power of CHI Steam is now in a compact size for easy storage and use. Ideal for travel, sewing, crafts, and more, the CHI® Mini Iron is ready to tackle the same jobs as a full-sized iron. With an easy-to-read electronic temperature control, the titanium infused ceramic soleplates and steam can be controlled to meet the temperature needs of whatever fabric you choose.

With CHI® Flat Iron Technology

Titanium-Infused Ceramic Soleplate paired with an easy-to-read Electronic Temperature Control for Superior
